Summary

Front-End Developer with 2+ years of experience. Phone: +20 1067813109. Email: sohaibjoma@gmail.com.

Collaborative and adaptable Front-End Developer with 2+ years of hands-on experience in Web Development, Software Engineering, and UI/UX Design. Proficient in JavaScript, TypeScript, React.js, Next.js, Vue.js, Nuxt.js, React Native, HTML5, CSS3, and SCSS. Experienced with Python and C++ for versatile problem-solving.

Skilled in Agile methodologies, collaborative teamwork, critical thinking, problem-solving, communication, adaptability, leadership, and time management. Consistently achieves up to 30% faster rendering times and 20% performance improvements across projects.

Skills

JavaScript, TypeScript, React.js, Next.js, React Native, Vue.js, Nuxt.js, HTML5, CSS3, SCSS

Python, C++, Redux Toolkit, Pinia, Vuex, RESTful APIs, Axios, JSON, Git, GitHub

Webpack, Vite, PWA, Shopify, Material-UI, Vuetify, Tailwind CSS, Vercel, i18n

Agile, collaborative, communication, critical thinking, problem-solving, adaptability, leadership, time management, teamwork

Work History

NOCKTA, Front-End Developer

Sept 2025 – present

- Engineered 5+ scalable web applications using React.js, Next.js, and React Native, delivering high-performance cross-platform solutions with 40% improved load efficiency.
- Developed and deployed Progressive Web Apps (PWA) and React/Shopify e-commerce integrations, ensuring 100% cross-device compatibility and reducing cart abandonment by 15%.
- Collaborated with a 4-person engineering team using Agile sprints, consistently delivering features 10% ahead of schedule through strong communication and teamwork.
- Implemented performance optimization techniques including code splitting, lazy loading, and memoization, reducing Time to Interactive by 1.8 seconds.

Rzain, Front-End Developer

June 2025 – Sept 2025

- Developed a comprehensive ERP system using Vue.js and Pinia, optimizing complex application state management and reducing state-related bugs by 35%.
- Collaborated directly with backend engineering teams to define business logic, execute API integrations, and conduct rigorous testing, cutting integration errors by 25%.
- Refactored 10+ legacy components to Vue 3 Composition API, improving maintainability and reducing technical debt by 30%.
- Designed and implemented reusable component library with Vuetify, accelerating feature development by 20%.

SolutionPlus Company, Front-End Developer Intern

Jan 2025 – Apr 2025

- Developed scalable applications using Vue 3 and Nuxt 3, increasing overall application performance by 20% through code-splitting and lazy loading strategies.
- Integrated Axios for robust REST API connectivity across 8+ endpoints, expanding user accessibility to 3 languages via i18n internationalization.
- Maintained unit tests for 15+ components, achieving 90% test coverage and measurably reducing production bugs.
- Participated in daily Agile standups and sprint planning, demonstrating strong adaptability and collaborative problem-solving skills.

Freelance, Front-End Developer

Jan 2024 – present

- Engineered 5+ web applications using React.js, gathering client requirements and delivering solutions that achieved a 95% client satisfaction rate.
- Reduced average page load time by 2 seconds through performance optimization including code splitting, memoization, and image lazy loading.
- Managed end-to-end project delivery for 3+ clients simultaneously, demonstrating strong time management, leadership, and communication skills.
- Delivered bilingual Arabic and English interfaces using i18n and Nuxt.js, expanding client reach by 40%.

Riadiat Company, Front-End Developer

Aug 2024 – Nov 2024

- Engineered dynamic user interfaces with Vue 2 and Vuex, cutting page load times by 1.5 seconds and improving Lighthouse performance score by 22 points.
- Built and optimized 20+ reusable UI components using JavaScript and CSS3, reducing future development time by 40%.
- Applied Agile methodology and critical thinking to deliver project milestones consistently on schedule.

Projects

Al-Tashirat Platform

- Crafted a bilingual front-end architecture with Nuxt 3 and Vuetify, managing complex state logic via Pinia for 50+ interactive UI components, reducing render cycles by 30%.
- Built a secure admin dashboard using Vue 3, managing data flow for 12+ backend REST APIs with full i18n support for Arabic and English.
- Achieved 98% Lighthouse accessibility score through semantic HTML5, ARIA labels, and responsive CSS3 design practices.

SAHL Furniture

- Developed a React.js e-commerce store with Material-UI and Redux Toolkit, processing 100+ product listings with optimized cart state management.
- Implemented responsive design across 5+ breakpoints using CSS3 and Tailwind CSS, ensuring consistent UX on mobile, tablet, and desktop.

Education

Damietta University, Bachelor of Science in Computer Science

June 2024
